Career Objective

Motivated B.Tech student specializing in Artificial Intelligence and Data Science with strong interest in Full Stack Development and emerging technologies. Skilled in React, Spring Boot, and database design with hands-on experience building scalable web applications. Seeking opportunities to apply technical skills to develop innovative solutions.

Education

B.Tech in Artificial Intelligence and Data Science

GMR Institute of Technology (GMRIT)

Expected Graduation: 2027

Intermediate

GCSR Junior College, Rajam

Secondary School (SSC)

ZPHS, MSR Puram

Technical Skills

- **Programming Languages:** C, Java, Python, JavaScript
- **Web Technologies:** HTML, CSS, Bootstrap, React
- **Backend Development:** Spring Boot, Node.js, REST APIs
- **Database:** MySQL, SQLite
- **Tools:** Git, GitHub, Postman, VS Code

Projects

Munchly – Food Delivery Platform

Tech: React, Spring Boot, MySQL

- Built a full-stack food ordering application supporting menu browsing, cart management, and order placement.
- Developed REST APIs using Spring Boot and designed relational database schema.

MealMitra – Surplus Food Donation Platform

- Designed a platform connecting restaurants, volunteers, and NGOs to distribute surplus food.
- Focused on reducing food waste while enabling community food support.

Medical Adherence System

- Developed a system to help patients track medication schedules and improve adherence.
- Integrated reminders and monitoring features for better health management.

Research Work

Term Paper: Cryptocurrency and Blockchain

- Studied Bitcoin transaction traceability and forensic investigation techniques.
- Analyzed how blockchain analytics can uncover criminal activities on the dark web.
- Explored concepts such as heuristic clustering, taint analysis, and transaction graph analysis.

Achievements

- Secured **1st Prize** in the **Gen AI Hackathon** for developing an AI-based solution.
- Ranked in the **Top 5 in Codethon** and received appreciation from the **Principal**.
- Participated in **Smart India Hackathon (SIH) 2025** and was **selected in the college internal hackathon round**.
- Participated in **Data Craze** and **AI Marathon** events at **STEPCONE-2025**.

Areas of Interest

- Full Stack Development
- Artificial Intelligence
- Hackathons and Innovation Challenges
- Problem Solving and Algorithms

Additional Information

- Languages Known: English, Telugu
- Hobbies: Watching movies, Cricket, Exploring new technologies
